

# CEO Greetings

Welcome and I appreciate your interest in our products.

Crane is in the trade of providing highest quality and consistent copper products.

Since our establishment in 1986, our one and only focus was in constancy in quality & commitment in manufacturing copper products.

With over 35 years of corporate experience and focus in copper products; we are very proud to claim that we now are the de-facto standard in copper tube and copper fittings.

It is our pride and joy that we already have the capacity and capabilities along with the Global certifications already at hand to produce for North America, South America, Europe, Middle East, Asia, Oceania and Africa.

Equipped with the state of the art manufacturing facilities and mass production systems meeting or exceeding Global standards and various certifications, Crane is able and willing to produce any Standard/ non-standard copper products to meet our client's various flow control application needs (water, gas, sanitation, air-conditioning & heating to various plant fittings).

We are more than confident that our products are second to none and we proudly invite your comparison of our products with anyone's and you will not be disappointed.

Lastly, I affirm to you that Crane will always manufacture consistent quality products and will always be committed to supporting our partners domestic and abroad.

Sincerely,  
Chairman & CEO  
Kwangwon Lee
